

SpinSite Website Design Agreement

- I agree to pay the \$299 website design fee, an initial fee of \$50 to begin the design process, and \$249 upon completion of my site. This fee is nonrefundable and separate from monthly hosting fees (separate charges will be made to my credit card for domain and design services, for a total charge of \$299). The SpinSite design team will consult with me throughout the design process to ensure my satisfaction with the creative direction of my website.

- I understand that the \$299 website design fee includes the following:

Complete design of a five-page website, using an existing SpinSite theme of my choosing. I may choose to have additional pages designed at a rate of \$50 per page.

A half-hour training session with a SpinSite consultant to familiarize me with the innovative features of my SpinSite website.

Set up of a domain name of my choosing (based on availability).

A maximum of five photo albums with up to 20 images each, up to 500 words of formatted text per page, inclusion of thirty download features, up to 20 product items on an ecommerce page, and a maximum of 20 images per page. I will receive training on adding these elements to my website so I may update my website myself.

- I understand that my website is being created using the SpinSite website building service. This service (which is a combination of html and back-end server programming) will only run on the SpinSite servers, and as such can't be moved to another hosting company without losing most of the benefits that SpinSite provides. These benefits include: easy updates to my site from any internet connected computer, photo album feature, calendar feature, discussion forum feature, blogs, and much more.

By signing below, I authorize SpinSite, Incorporated to charge my credit card for the design of my website and subsequent monthly hosting charges for my website.
